# Introduction

---

This Descendant Chart has been produced to compliment the information in the book "From Hargest to Argus" by Bob Argus. A History of the Argus Families of Australia and New Zealand.

Bob has documented the origins of the Argus name in the United Kingdom beginning in the mid 1500's and then follows the life of two brothers, Thomas and John Argus, in England before they migrated with their families to Australia in the 1840's. Both families settled in the state of Victoria. The book documents their life in Australia up to approximately 1900 and the establishment of the New Zealand branch of the family by a grandson of Thomas.

A web site was also established to facilitate the interchange of more recent Argus Family history. Realistically the book could not possibly include all the descendants of the two brothers since 1900, so it was decided to include Descendant Charts of each of Thomas and John Argus on the web site for downloading and updating, thus keeping the family history alive and continuing on from the excellent work to produce the book "From Hargest to Argus".

The web site is at : [www.argus-family.info](http://www.argus-family.info)

Details of the book can be found there together with instructions on how to obtain your own copy.

## Privacy

As a guard against the possibility of "Identity Theft" of living persons, birth details of individuals are only included on the Descendants Chart for deceased persons. If a death date is unknown, it has been assumed that persons over 110 years of age are deceased.
